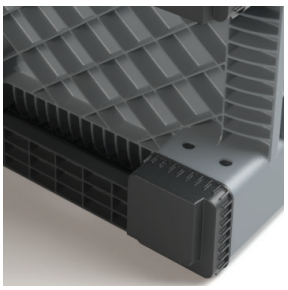
Persian Sanat Data Sheet

BP1-FO

PERSIAN SANAT

You do not always have to carry fully packaged products. High volume pallet boxes are known as an ideal solution for safe storage and convenient transportation of products such as vegetables, fresh and dried fruits, nuts and small parts or bulk goods. They are primarily used in the food industry, agriculture or industrial production. Another advantage is that they adapt very well to automatic transmission systems.
The material used to manufacture this type of pallet is food-grade.

Flap opening to facilitate unloading products



Equipped by runners to be capable of racking systems

POWER OF QUALITY

Art No.
PS-1210-BP-FO
Previous Name
Pallet box with Flap opening

PERSIAN SANAT

Net weight (kg)	45 ± 0.5
Bottom type	2 Runners (Snap-On)
External dimension (mm)	1200×1000×915
Internal dimension (mm)	1110×900×700
Capacity (L)	700
Temperature stability (ºc)	-20 To +40
Stacking load (kg)	5000
Static load (kg)	5000
Dynamic load (kg)	1000
Racking load (kg)	1000
Loading quantities (pcs/approx.)	84 Container 40 HC; 104 Jumbo Truck
